Members of the display men's section of the Retail Merchants' Association met last night to discuss plans for the long hours which they were required to work, especially in the winter time, when they have to be about the schools at 5 o'clock in the morning in order to get the building warm for the children by 9 o'clock. He expressed the belief that the examination of the trees by District officials to find the cause was in a way superficial. He asserted that they first thought leakage from the gas mains was causing the trouble, but an examination by the gas company showed that there was no leakage from the mains. Then, he continued, it was attributed to electrolysis, but an examination failed to disclose this as the reason. Arlington Hotel Liabilities.

Justice McCoy has declined to modify the order the receivers were directed to withhold the share of Charles P. Taft and others against whom claims of llability as stockholders are pending in the courts. Attorneys McKenney and Flannery, for Mr. Taft, had requested that the reservation of the order be removed as to the money to be paid their client. In denying the application, Justice McCoy held that as the question has been raised of Mr. Taft's liability as a stockholder of the company, it would not be proper to permit him to receive a dividend as a creditor. The modification of the order was opposed by Attorney H. H. Glassie, representing the American National Bank of Richmond, which first began the proceedings against the hotel company.
